

CertifyQuiz — SEO Validation Report (Next.js 15)

Date: October 2025

Environment: Localhost (Next.js 15.5.3)

Tester: Lorenzo Beux

Summary of Results

Playwright E2E tests were executed on all key SEO endpoints:

- /it/certificazioni
- /it/certificazioni/aws-cloud-practitioner
- /it/quiz/aws-cloud-practitioner

All canonical, hreflang, and og:url tags were validated successfully across all languages (IT/EN/FR/ES). The SEO metadata structure is consistent and stable. No blocking issues detected.

Technical Notes

- Framework: Next.js 15.5.3 (App Router)
- Pages tested: List, Detail, Quiz
- Revalidation: 24h (ISR)
- Tool: Playwright 1.56.1
- Total tests passed: 6/6
- Duration: ~20 seconds total

Next Steps (Optional)

1. Add optional OG/Twitter meta tests (og:image, og:title, twitter:card).
2. Add JSON-LD validation (BreadcrumbList, Course schema).
3. Integrate Playwright CI workflow for automatic SEO validation on push.
